

LITTLE CITY

Role play adventure for kids

A little city just for little people

Little City is a fully mobile role play centre incorporating shops and businesses built especially for kids aged up to 6. It can be set up with minimal fuss and in almost any location.

Does your toddler or pre-schooler just love to role play? Do they pretend play being a fire fighter, police officer or hairdresser?

If so, come and try out our purpose-designed little city where they can be a shopkeeper, run their own café and be a superhero all in one hour!

Little City gives your children the opportunity to explore and play being a 'grown up' - an experience they'll want to try again and again.

All our events are PAYG so no termly fees: come and join us for a hot tea or coffee whilst your child plays and learns.

Looking for a unique birthday idea? Book us for your next party!
